

[TERRIE DAUGHTRY]

Services Offered | We specialize in room arranging, utilizing what the client already owns to it's best advantage and adding pieces as needed. Homeowners return at the end of the day to a great new room. We love watching their reactions. It is extremely satisfying. We also do custom interiors, bedding, draperies, remodels and light commercial projects.

What Sets Them Apart | We do not decorate with a signature style. I want our clients' home to reflect their style, not my own. The resources we have on board include: a general contractor, tile layers, painters, faux finisher, designers and a retail store with a wonderful staff to assist with decorating decisions.

Best Advice Ever Received | A dear friend advised me years ago to be who you are and do what you do. You are actually quite good at it.

Her Inspiration | I look for inspiration from all of those who are placed in my life, but recently, my brother Tony, a Hurricane Katrina victim who has overcome tremendous hardship with grace, humor and not a speck of self pity. We completed his new contemporary home in New Orleans this fall. You can view it on our website.

Her Motto | Our favorite phrase around ShoeString is, you don't have to live big to live well.

Their Standard | Our goal is for each client to enjoy a beautiful, functional home that reflects their own tastes and interests, and achieve that at a good value.

Charitable Interests | Our retail store is noted for our products that give back. We currently carry a line of necklaces, bracelets and baskets handmade in Uganda that benefit the women who actually make the beads and HIV/AIDS treatment; a candle line recently featured as an Oprah favorite thing that benefits the Humane Society and a line of soaps and lotions that benefit breast cancer research. My business is also an active supporter of the Keller Community Storehouse.

You Should Know | We pride ourselves on customer service whether you are a customer at our new retail store in the Arthouse at Keller Town Center or a design service client. We can help you "Love Coming Home."
